

CUSTOMER CERTIFICATE

2024

1zu1 Prototypen GmbH & Co.KG

saved a total of

754 kg CO₂e

by purchasing the climate neutral product

PA 1101 ClimateNeutral

Thank you for your contribution.

EOS and its suppliers increased the production efficiency in the manufacturing and further processing of PA 1101 ClimateNeutral and thus significantly reduced the CO₂e footprint. The remaining greenhouse gas emissions resulting from the production, processing and transport of PA 1101 ClimateNeutral were offset by purchasing Gold Standard carbon credits from externally verified climate protection projects.

Further information is available on www.eos.info

A handwritten signature in black ink that reads "Björn Hannappel".

Björn Hannappel
Head of Sustainability EOS GmbH

The Gold Standard logo, which consists of the word "Gold" in a teal color and "Standard" in a dark grey color, with a registered trademark symbol (®) at the end.

The stated greenhouse gas emissions refer to all greenhouse gases (CO₂ equivalents or CO₂e) covered by the Kyoto Protocol and include emissions from production, processing and transport as well as upstream emissions from raw-material and energy production. Greenhouse gas emissions were calculated in accordance with DIN EN ISO 14040/44.

TÜV SÜD has verified the calculated greenhouse gas emissions according to DIN EN ISO 14040/44 and DIN EN ISO 14067 and climate neutrality according to PAS 2060 for the period from 01.01.2024 to 31.12.2024 in accordance with the EOS Responsible Products Management System.
